BABY HOME
NATURAL

Nature on and around your baby

When my babies were born, Neri and Enea, looking into their eyes I saw what Nature has created most beautiful.

I saw the blue of the sea, the infinity of the sky, the light of the stars, the immense expanses of meadows and the most beautiful colors of the flowers. I wanted nature to be on them and around them, so Dili Best Natural was born.

Clothing, linen and furnishings designed and made with the best fabrics from natural and certified fibers.

From a mother to all mothers and their sweet babies.

Diletta

NATURAL because

 BREATHABLE AND THERMOREGULATOR

We used natural fibers such as bamboo and cotton. Bamboo having a porous structure has the power to absorb excess sweat and provide perspiration thus maintaining a natural body thermoregulation.

 GOTS AND OEKO-TEX MATERIALS

The fibers used are guaranteed GOTS which is the most important international standard for the sustainable production of garments made of natural fibers from organic farming; the OEKO-TEX certification certifies its non-toxicity and healthiness.

 ANTI-MICROBIAL AND HYGROSCOPIC

A unique feature of bamboo fabrics is its antibacterial quality due to an anti-microbial bio agent that is inherent in the fiber itself. It is called "bamboo kun" and tends to reduce bacteria hidden in the fibers of the clothes and therefore on the skin,

 ORGANIC

The organic fabrics, specifically the cotton used, are produced through organic production systems and the use of chemical pesticides and fertilizers, toxic and persistent in the environment, has been eliminated. Cotton does not come from genetically modified (GMO) seeds.

 SOFT AND LUMINOUS

Bamboo was once called "artificial silk", soft on the skin, enveloping and imperceptible, perfect for baby's delicate skin. Bamboo fiber is part of the viscose family and its luster is one of the most appreciated qualities.

 VEGAN VEGAN AND ANIMAL LOVERS

We love nature and our raw materials also love it. Our fabrics respect animals and the environment therefore they have the characteristic of sustainability of it. Organic cotton is a sustainable and ecological material.

Baby
clothing

 Bamboo bodysuits

Bamboo viscose is the artificial silk that will embrace your baby in a soft embrace.
Highly elastic, it respects baby's sensitive skin by promoting perspiration.
Imperceptible on the body, it avoids the annoying itching sensations.

Bamboo jumpsuit

Clothing made of bamboo viscose creates a small screen against UV rays and if in direct contact with the skin, on summer days, it helps to protect yourself from the sun's rays. Soft and elastic with rounded opening, it adapts perfectly to the child's body.

Bamboo chenille jumpsuit

Soft, smooth and enveloping, these are the characteristics of bamboo chenille.

Coming, like viscose, from bamboo it is know for the same properties.

Proceeding with suitable care, including washing and ironing on the contrary, it will guarantee its softness unchanged over time.

Bamboo jersey wrap

Bamboo viscose garment essential for the birth of the newborn.
An imperceptible blanket able to embrace the baby and make him feel safe.

Bamboo Mom night dress and short sleeve t-shirt

Comfortable nightgown with front opening for perfect use before childbirth and during breastfeeding. It glides on like silk on the skin avoiding itching. The short sleeve t-shirt is a fundamental item during childbirth in order to have immediate breast's contact with the baby.
