**LITTLE DUTCH**

*— enjoy the little things —*

## About the brand

Little Dutch is a Dutch-born brand for babies, toddlers, and preschoolers. For more than a decade, our in-house design team has been creating a wide collection of versatile products that are equally interesting and practical. For in the house or on the go. Things to keep for yourself or to give as a present. Little Dutch designs are an enrichment for children who grow up and parents who bring up.

From toys and bed linen to essentials and decoration. Little Dutch ensures that each product is a real treasure. We think of the little ones as much as we follow their parent's wishes. Our products provide a timeless sense of style, are fun to play with and completely safe for use by children.

Little Dutch is committed to supporting both parenthood and the development of every child as much as possible, no matter what the day brings. Our designs are as functional as they are fascinating. They sparkle joy, add comfort and bring ease. Little Dutch makes everyday happiness more happy.

### Design & Collection

To us, quality and design are both equally important. Our products are carefully crafted with the greatest care and attention. Plus, parents can be confident that every piece is thoroughly tested. Each product features surprising details and is made from high-quality materials.

Every year we introduce new themes with aesthetically pleasing prints that you'll see throughout our various collections. This gives our products a more distinct look and feel. Timeless but interesting, our products are designed to incorporate into your daily family routines and to seamlessly blend with your interior.

Little Dutch is all about love and family. About every day rituals or unexpected moments. About daily routines and new adventures. From playing and sleeping to caring and entertaining.

With beautifully designed, comfortable quality products, we aim to make every small or big step in a child's development more enjoyable, and we hope to support both mums and dads through the many challenges of parenthood.

Little Dutch is an infinite pursuit of family happiness. It's our dream to become a worthy addition to growing children and their parents, day and night. During the formative years, we aim to inspire with versatile and loving products that add more happiness to the first and fundamental years of every child's life.

### 'Enjoy the little things'

It's the little things in daily life that bring us true happiness. Like seeing a smile on a child's face or a newborn that sleeps safely and soundly. Having a cozy family dinner or playing together with your kids. But also, a nursery that feels comforting and warm or a care product that you gratefully use. Little Dutch encourages children and their parents to enjoy the little things in life.
