LITTLE DUTCH
— enjoy the little things —

ABOUT THE BRAND

From a small attic room in the Netherlands, Rinke van der Helm and her sister started to create and sell their own lampshades. Two years into the development, she started her own label Little Dutch. In 10 years' time, Little Dutch has grown to be an established name in both the Netherlands and other countries across Europe. The brand offers modern nursery essentials, accessories and toys for babies and children. Its products are not only functional, but also safe and of a very high quality.

With an extensive product range, it is Little Dutch's mission to contribute to the important formative years of a child. With our textile products, we offer little ones warmth and comfort and with our toys we provide support in the different stages of children's development. Our contemporary design appeals to a child's imagination which, in turn, guarantees hours of playing fun.

Every year, Little Dutch launches a new theme and textile collection. The themes, designs and colours of the various collections have been thoughtfully put together by our team. The designs are incorporated in all product categories. This means that all colours match different collections and products from other categories. Whether they are essentials, toys, clothing or decoration, Little Dutch items are trendy yet timeless - making sure you can easily combine and endlessly enjoy them.

Our team is filled with skilled and creative people who work passionately to create and expand the Little Dutch product range. You will find us at the most important fairs to share our creations with you. You can also find us on social media, where we have built a strong and personal interaction with our true followers worldwide.

Become a fan as well, as a customer or consumer. Or why not both!

Little Dutch. Enjoy the little things.
